

THE NEIGHBOURHOOD PLAN

LET'S IMAGINE.
LET'S SHARE.

PLACE & CULTURE

A walkable arts district lined with shops and restaurants, animated by live performances, and year-round events. Parks and gardens connected to trails, places to play, and nearby conservation areas with sweeping views. This will be a place celebrated for its artistic and cultural offerings, and one that embraces every season. Here, anything is possible.

HOUSING FOR ALL

Homes built for families, youth, and seniors, renters, first-time home buyers, and for generations to come - where people of all ages and life stages can live, stay, and thrive. This will be a community with everything you need within walking distance: grocery stores, coffee shops, restaurants, activities for the weekend, health and wellness services, and green space.

FARM TO TABLE

Together, we are creating a Made-in-the-County community. Grounded in the County's rural roots and inspired by it as a place of creative pursuits, this will be a place that enhances and expands opportunities for makers, shakers, restaurateurs, and growers. Where locals will drive the economy through 'local-first' retail curation, agribusiness strategies and partnerships, and craft and culinary entrepreneurship programs.

PEOPLE & ECONOMY

Built for livability and brimming with opportunity: for small businesses to thrive, for workforce expansion, and for continued learning. We can create a collaborative work ecosystem - with co-working and creative spaces to power the local economy. The plan's principles ensure the design of a complete community with services and amenities to meet the needs of today and tomorrow.

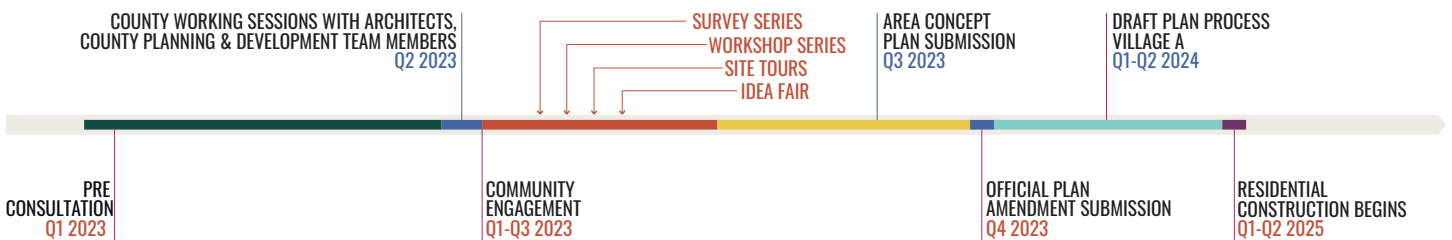

FUTURE READY

A community designed to enhance our shared futures in wellness, economy, and quality of life. Pedestrian-friendly pathways and safe cycling routes to encourage a healthy lifestyle. Access to nature, clean water, and fresh air to improve quality of life. Community gardens and markets to strengthen the local food economy. This will be a place that nurtures the local economic and environmental health now and into the future.

PROJECT TIMELINE

The Official Plan Amendment application has been submitted and is under review by the County Planning Department.
